SWHHS COVID-19 Appeal for Community Action

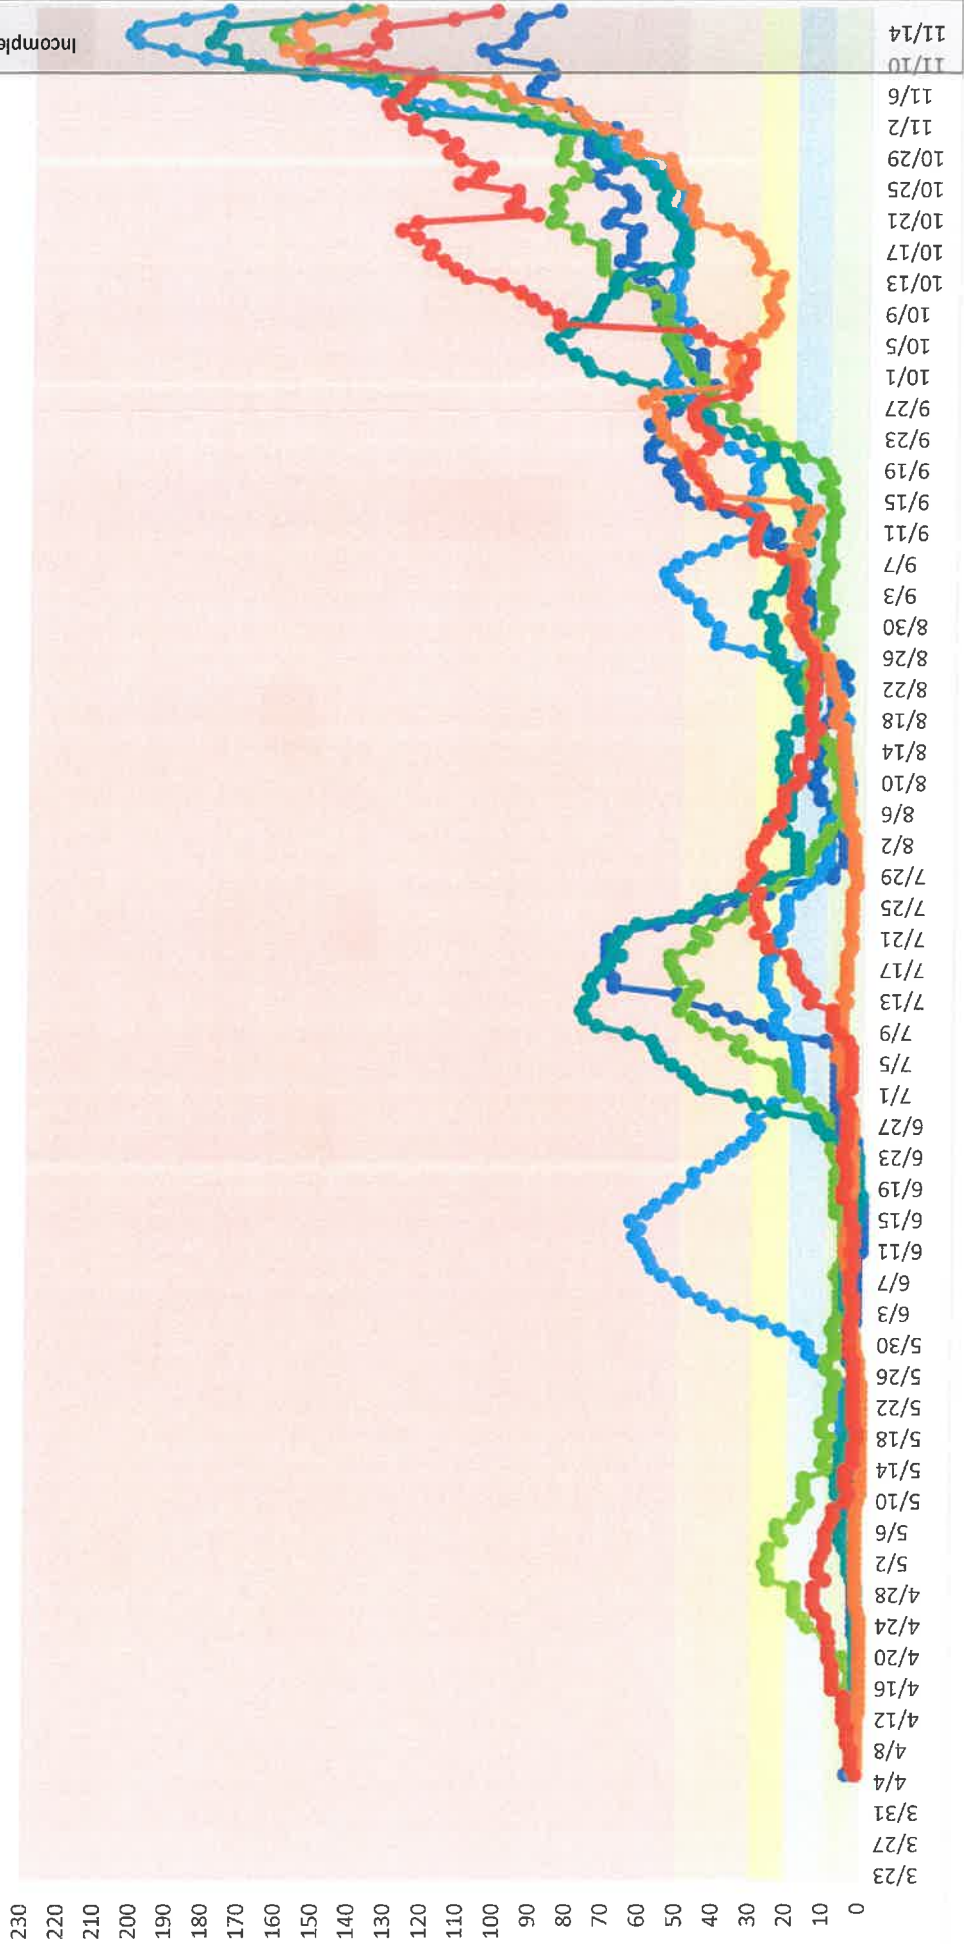

Southwest Health & Human Services (SWHHS) counties of Lincoln, Lyon, Murray, Pipestone, Redwood and Rock have dangerously high community transmission rates of COVID-19. We remain deeply committed to the health and well-being of our residents, employees, and communities. SWHHS Board urges all community members to take personal responsibility for the health of our communities.

The number of individual's infected, severe cases leading to hospitalization, and individuals dying from COVID-19 related deaths continues to rise throughout Minnesota. Currently, there have been fifty eight (58) COVID-19 related deaths in our SWHHS counties. Higher rates of virus transmission in the community increase the risk for all members of your community, including residents and staff in healthcare and long-term care facilities. The rise in the number of cases has a significant impact on hospitals and the healthcare system. It overloads valuable resources like availability of beds, supplies, medications and staff. When community spread is this significant, workforces are inevitably affected due to exposure or illness. The residents and staff in these facilities are at serious risk even as they take great action to limit infections. We need all citizens and employers to take aggressive action to stop the spread of COVID-19. The SWHHS County Commissioners unanimously voice their support of the efforts to stop the spread of COVID-19 and urge communities, schools, businesses and patrons to follow these guidelines:

1. **Monitor Your Health Daily.** If you feel unwell please stay home.
2. **Get tested if you have symptoms or if you are a close contact.** Follow isolation and quarantine guidelines. Identification of COVID spread can help stop the spread.
3. **Cover your mouth and nose with a mask when around others.** Everyone must wear a mask in public settings and when around people who don't live in your household, especially when other social distancing measures are difficult to maintain.
4. **Maintain social distance.** When out in public, maintain six feet of distance between yourself and others who do not live in your home. Avoid any large gatherings. Stay

14-day Case Rate per 10,000 People by Date of Specimen Collection

Tier 1 Tier 2 Tier 3 Tier 4 Tier 5 Lyon Murray Pipestone Redwood Rock

Gray rectangle at the end shows timeframe that we are still receiving testing data. Generally, SWHHS is getting data up to a week after people are testing positive. 14-day Case Rate is based on the formula developed by Minnesota Department of Health for K-12 School Opening

MDE RECOMMENDED LEARNING MODELS	14-Day Case Rate of Infection
In - Person Learning Model for all District Students	(0) to (10) Rate of Infection
Elementary In-Person Model, MS / HS Hybrid Model	(10) to (20) Rate of Infection
Elementary Hybrid Model, MS / HS Hybrid Model	(20) to (30) Rate of Infection
Elementary Hybrid Model, MS / HS Distance Learning Model	(30) to (50) Rate of Infection
Distance Learning Model for all District Students	(50) or more Rate of Infection

This is the price quote for bulk testing kits through Vault. We are proposing the purchase of 300 kits to use throughout our 6 counties whenever there is a barrier for testing.

Thanks,
Ann

Hi Ann, As we discussed, We can provide covid testing for you. The pricing would be \$109 for each test kit. These Test kits will be bulk shipped to you and you would hand them out to people to take at home in front of one of a ZOOM tele health professional. The total cost of these tests which includes UPS overnight shipping both ways would be \$32,700.

Just to be clear this purchase would not qualify for the free MN testing that is being offered by us.

thank you!
Jeff
